

Dear Colleagues!

We kindly invite you to register for our workshop "Climate and Water under Change" on 06 November 2023 at HU Berlin. This one-day, on-site-only event will bring together researchers working on water-related topics. We are looking forward to welcome researchers working on climate change, hydrology, ecosystems, biodiversity, ecosystem services, flood and wastewater management, and water resource management, but are not limited to these topics. The aim of the event is to jointly develop new project ideas and to discuss funding opportunities. The workshop combines pitch talks, discussions and brainstorming with the aim of identifying common approaches, shareable datasets, and best practices in the respective research areas.

The workshop is organized by the ERU "CliWaC" ("Climate and Water under Change"), a transdisciplinary research initiative of the Berlin University Alliance to address water-related risks under climate change. CliWaC will bring together social and natural science as well as practical expertise from stakeholders to support the governance of mitigation and adaptation measures in response to climate change. The consortium consists of project leaders affiliated to the BUA members Freie Universität (FU) Berlin, Humboldt-Universität (HU) zu Berlin, Technische Universität (TU) Berlin, and Charité. External institutions are incorporated by joint appointments with Berlin University Alliance (BUA) members (Leibniz Centre for Agricultural Landscape Research ZALF) or as external partners (Institute for Ecological Economy Research IÖW).

**Program:**

09:00-09:15 Introduction

09:15-10:30 Brief overview of previous research

10:30-11:00 *Coffee break*

11:00-12:30 Learned lessons from our research

12:30-13:30 Lunch break

13:30-15:00 Funding opportunities

15:00-15:30 Wrap up & Where to go from here

**Registration:**

registration opening: from now on

registration closure: October 06, 2023

For registration please write a short mail to [tobias.sauter@geo.hu-berlin.de](mailto:tobias.sauter@geo.hu-berlin.de).

**Costs:**

The on-site participation is free. Coffee breaks will be provided.

**Location:**

Beratungsraum 1066e  
Humboldt-Universität zu Berlin  
Hauptgebäude, Erdgeschoss  
Unter den Linden 6, 10117 Berlin

**Acknowledgment:**

This workshop is financially supported by Geo.X - The Research Network for Geosciences in Berlin and Potsdam, as part of call "Grow Your Idea! - Developing new collaborative research in geo- and planetary science using existing competencies in the Geo.X network". For further Information: <https://www.geo-x.net/get-involved/grow-your-idea/>

The main organizer of the workshop is Prof. Dr. Tobias Sauter, principal investigator at the ERU "CliWaC".
