

Workshop announcement

Drivers of climate risks in Europe

Harmonizing research on impact attribution of past events

Are natural hazards on the rise only due to climate change?

Or is there more to the story?

Find out about the latest developments in pan-European, multihazard impact attribution efforts and check out how you can contribute yourself!

Friday, 22 September 2023, only on-site at the
Potsdam Institute for Climate Impact Research

For more **information** and **registration** for free participation (until 8 September):
