

SAVE THE DATE

Geomicrobiological and Geochemical Colloquium

Seminar Program Jan-June 2024

Dr. Christian Knoblauch **Jan 9th**

University of Hamburg, Germany
Soil organic matter decomposition and formation in permafrost affected arctic tundra soils

Dr. Sonja Oberbeckmann **Feb 6th**

Federal Institute for Materials Research and Testing (BAM), Germany
The microplastic microbiome

Niculina Musat **Mar 12th**

Aarhus University, Denmark
Microbial processes under the beam: correlative microscopy and chemical imaging to investigate single-cell metabolism and cell to cell interactions

Dennis Nürnberg **Apr 9th**

Freie Universität Berlin, Germany
Life in the shade: How cyanobacteria use far-red light

Daniela Soto **May 7th**

University of Chile, Santiago, Chile
What a colorful pole: insights into Antarctic snow algae blooms
online

Ilya Bobrovskiy **Jun 4th**

GFZ German Research Centre for Geosciences, Germany
Searching for the roots of our earliest animal ancestors
